Accuracy in correcting the defect.  
Accuracy in selecting the proper frames.  
Accuracy in advice given.  
Accuracy in what we promise and guarantee.  
There is no place where accuracy and skill are more at premium than with the Optician. We make a searching examination and exercise the most painstaking care in the adjustment of every pair of glasses we sell.

## DELAYED BY STORM

TRANSPORT BUFORD HELD BACK BY HEAD WEATHER—SOLDIERS AND SAILORS ABOARD.

United States Army transport Buford arrived off port from Manila and Nagasaki last evening at 9 o'clock and entered the harbor early this morning; she sails at 5 o'clock this afternoon for San Francisco, taking mail.

She was expected here on Monday last, but was delayed by exceedingly heavy head winds and seas. For several days she was compelled to travel at reduced speed to avoid sweeping her decks with the great waves that charged her again and again.

Early yesterday the Toyo Kisen Kaisha S. S. Hongkong Maru passed her, at a considerable distance, and they did not exchange signals.

The Buford sailed from Nagasaki on March 23 and the Hongkong Maru sailed from Yokohama on March 31, so an idea of how much faster the Hongkong Maru travels may be obtained from these facts.

While the weather was severely heavy there was no material damage sustained by the vessel, but her passengers declare they never experienced such wind as that which prevailed.

The Buford has aboard the headquarters, land and companies C, I, K, L and M, of the Second Infantry, including 301 enlisted men. She carries, also, 95 men of the U. S. Marine Corps and Navy, and 171 discharged soldiers, sailors and civilians, about 700 passengers in all for San Francisco.

For a while it looked as if the Rob Roy was going to follow the fate of the schooner Lady, which was on Sunday last stolen by pirates and wrecked on the Waianae beach.

The crew of the Rob Roy hoisted a signal of distress, a piece of canvas in their rigging.

The lookout at the Young Brothers' headquarters, with the telescope, made out what the matter was with the Rob Roy and the Hukihuk hurried to the little boat's assistance, getting her off and bringing her safe to port.

She was in twenty feet of water and the anchor was dragging, with the wind inshore.

## MOHONK MAY HEAR GOVERNOR FREAR

(Continued from Page One.)

to attend the Conference at that time. If I can attend, Mrs. Frear will probably accompany me.

Very truly yours,

W. F. FREAR,

Governor.

Under date of March 20 H. C. Phillips, secretary of the Lake Mohonk Conference on International Arbitration, wrote to the secretary of the Chamber of Commerce, Honolulu, saying:

Supplementing our circular letter of February 24th we wish to invite the Honolulu Chamber of Commerce to send a delegate to our coming meeting (Mar. 27) to 28, in view of your distance from the meeting place of the conference, we would be perfectly willing to waive the requirement that the delegate be a member of the community in case you find it impossible to secure a Honolulu man for the place.

The circular of February 24, referred to above, contains the following information:

First.—To inform you that the fourteenth annual meeting of this conference will be held here May 20-22, and that your organization is invited to appoint one delegate to that meeting. The delegate should be a business man (or an officer of the organization), a member of the organization, and, in the case of a local organization, a resident of the community. He (and his wife should accompany him) would be while here among Mr. Albert K. Smiley's personal guests.

While this need not be deemed a final invitation (since we will write again if we do not hear from you), we would be gratified if you would so consider it, and make definite plans to be represented.

Second.—To invite your suggestions. We hope to have at our coming meeting, in addition to the participation of the delegates, at least two carefully prepared papers on the relation of business men to the international arbitration movement. For these papers we desire to ask representative business men, of as nearly national reputation as possible, who are good speakers and whose utterances would attract wide attention. So far as possible we want our co-operating business organizations to select these men.

Will you kindly suggest two or more gentlemen
